August 2024

The Hawkins County Humane Society's two new buildings will be constructed adjacent to the current building on Highway 11W in Rogersville. The new buildings will more than double the number of dog kennels with +30 new dog kennels and 35 new cat kennels in a total new space of 4,000 square feet. The new buildings will include a much-needed exam room, puppy room, quarantine area, meet/greet room, and reception area. The no-frills cost of the new adjoining animal shelter is approximately \$400,000, with our need approaching \$800,000 for final expansion buildout. A revamp of the aging current building is also needed.

We are offering you the opportunity to be a premier-sponsor of this much needed project.
